

BOARD OF DIRECTORS NOMINATIONS

Current board members interested in another term are: James Mykytenko, Jeanne Clark, Alexa Williams, Tara Stephenson-Fong,

New nominees are: Jannine McDonald, Alexandra Kerr and Nancy Girten.

Below is an introduction to each nominee.

Jeanne Clark

My husband and I moved to Hollywoodland almost two decades ago. We were drawn to the unique beauty and charm of the neighborhood. We feel extremely fortunate to live here. However, in that time the negative impact to quality of life and safety has been alarming. Having served on the board these last two years I actively participated in HHA actions to help address some of those issues such as unregulated tourism traffic, congestion and smoking, infiltration of party houses, and emergency management needs. I would be honored to continue this work as a member of the 2018 HHA board.

Tara Stephenson-Fong

Hollywoodland holds a special place in my heart. I was born and raised here. I own two homes here and I love this charming historic neighborhood. I feel that my passion and persistence will make me a positive addition to the board again. I have sat on the HHA Board for the past several years and we work hard to make the city hear our concerns. I, also, sit on the Design Review Board for the Hollywoodland Specific Plan and want to maintain the special charm that is this neighborhood. I currently work as a set decorator for the entertainment industry and have been honored with four Emmy Nominations during my career, as well as owning Hollywood Studio Gallery, an art gallery that caters to the needs of the entertainment industry. My father, Edward Stephenson, bought his 1920's Hollywoodland home in the 50's from the original owner and was passionate about the neighborhood and its historic background. The passion that he felt for Hollywoodland was instilled in me and I hope to maintain and improve this neighborhood. Some of my concerns are safety within our neighborhood, the disrepair of our overused streets, the influx of heavy traffic that compromises our neighborhood and general concern for the neighborhood as a whole. I hope that we can work together to make positive changes and maintain what is working here in Hollywoodland for the future of the community.

Nancy Girten

Homeowner and resident of Beachwood Canyon since 1996. Feel passionate about the neighborhood. It is a unique area. With the never-ending onslaught of outside forces (more so of late) attempting to affect that, it is all the more important to be diligent and protective of the quality of life in Beachwood.

Alexandra Kerr

Alexandra has been a resident of upper Beachwood since 1994 when she moved to Los Angeles on a work assignment for a European film company. She and her husband stumbled upon Beachwood Canyon and immediately fell in love with the historic community and its small neighborhood feel.

Originally from Portsmouth, New Hampshire, Alexandra lived abroad for much of her youth. She moved back to the U.S. with her family for her high school years, and later attended Columbia University in New York. Alexandra started her career as an executive for a small film company based in Munich. The company relocated her to Los Angeles to supervise production on its first American independent film, *The Usual Suspects*. She decided to give up the long hours of production, and embark on a new career in real estate after the arrival of her daughter, Lily, now 9 years old. She and her family have a deep love and respect for the Beachwood Canyon community, and always enjoy meeting neighbors and friends while walking their 14-year-old yellow lab, Auggie. Alexandra looks forward to supporting the Hollywoodland Homeowners Association in her role as board member, and to help keep the local spirit of this wonderful community alive.

Jannine McDonald

Jannine is a resident of N. Beachwood for two years and is a licensed architect currently serving on the Hollywoodland DRB. She brings experience of collaborating on two prior homeowner associations for nearly twenty years, where continuous land development and regional light-rail proposals threatened wetlands and wildlife corridors. Outcomes were successful and brought the community together. Key concerns for Hollywoodland are transportation issues, parking, safety and maintaining property values. She looks forward to working closely with neighbors, local businesses and government representatives.

James Mykytenko

My wife and I have been living in Beachwood Canyon since 2015. We love the beauty of this area, our wonderful neighbors, and our proximity to Kaiser Los Angeles Medical Center, where I work as an acute care surgeon and critical care intensivist. I have served on the HHA for the past 2 years and I would be privileged to continue serving on the board to continue our work on neighborhood safety and quality of life. Thank you for your support.

Alexa Williams

Alexa is a native Hollywoodlander and has served on the HHA board for the past two years. She is seeking a second term to heal Hollywoodland and unite the community.
