COMMITTEE REPORTS

Safety Committee

A meeting took place between 2 reps from CD4 office and the Chair of the Safety Committee to begin to discuss the measures to keep us safe & peaceful during the Spring break as well as to continue on the journey for the long range solution. Beefing up the measures during every weekend and holiday are *not* a long term solution; they are expensive Band-Aids. To read the full report, go to <http://hollywoodland.org> and click on the menu item for SAFETY. To volunteer for this month's **Safety Push**, write info@hollywoodland.org and put SAFETY on the subject line. ~ Jack Conrad, Committee Chair

Activities Committee

HHA is planning events to unify and celebrate the neighborhood, but we cannot do it all alone!

We need ideas and energetic volunteers.

MARCH HOLLYWOODLAND POEM

Spring break is coming
You know what that means:
Mothers with babies
And Teens with Teens;
Fathers and daughters
And lovers galore
Some ready to holler
Or knock on your door.
"I need a bathroom!
I've got to pee. . .
I can't? Well sheesh
Are you a NIMBY?"

Many tourists are nice
But the sloppy ones come
And ruin the weekends
For everyone ...
Especially for those who live real near
The entrances to the land we hold dear.
When we gifted the parkland to our fair City
We made sure that we said that
Our streets are to remain pretty.
The quiet smallness, the neighborly feel
Was to stay on an even keel.

We just want safety, and we want peace.
We want laws enforced by our police.
Speeders and smokers and litterers, too
Tour busses, overnights, and people who
Have sex in our yards and leave dings on our cars
Are welcome to walk through the paths on Mars.

Some beautiful HOLLYWOODLAND legacy

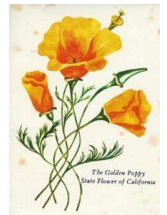

By Chris O'Brien, VP HHA

Searching our history has introduced me to many interesting people and places and proven our uniqueness. There is a long list of indisputable facts to support our preservation.

I found a November 25, 1923 LA Times article: "Hollywoodland Tract Will be Flower Garden". It discussed how Hollywoodland developer, S.H. Woodruff, commissioned **Theodore Payne** to plant wildflowers throughout the Hollywoodland tract. That original seed mix included the California poppy, blazing stars, wild Canterbury bells, blue lupine, wild heliotrope, blue villa, birds eyes and baby blue eyes. Vintage photos from the Williams Family collection show men sowing seeds on vacant hillsides in the residential section as well as in the open space equestrian section near the Hollywoodland sign.

I contacted the Payne Foundation about this historical article, and a wonderful relationship began. John Wickham, their archivist, found a 1920's receipt to Woodruff from Payne indicating the seed mix and amounts. This discovery inspired visits, conversations. and a luncheon at one of our historic homes with the Payne director, seed manager, and director of horticulture. This dialogue resulted in a re-creation of the original seed mix!

That very same mix will be scattered in the Village Plaza and on the adjacent hillside above the market parking lot and in planter baskets throughout the village. Wildflower seed plant mixes duplicating the 1923 sowing and California poppy seeds will be available for purchase at **My Fair Lady's Flower Shop**, with proceeds to seed Village beautification. Participate in the joy of flowers & history: create beauty on your hillside.
